**Starting Salary Range:** \$33,000 - to \$41,000, depending upon qualifications with an excellent benefit package.

**Job Descriptions/Qualifications:** MCCOG is looking for a qualified professional to serve as a GIS Specialist. This position is highly technical in nature and requires the ability to work independently and to manage projects and tasks with little or no supervision. The ideal candidate will have a minimum of one year of experience in creating, editing and maintaining data as well as producing high quality maps. The incumbent will also be responsible for continued development and implementation of the agency's geographic information system.

The GIS Specialist is responsible for GIS data management. The successful candidate will be proficient with current geoprocessing and data maintenance tools. Demonstrated proficiency with the ESRI software suite is a must. Responsibilities will include efficient and effective collection, generation and analysis of data from multiple sources, database design, development and management of quality control processes on GIS data to ensure the data meets specified standards, project coordination and GIS technical support to the MCCOG staff and local partners, and using data to prepare reports or support decisions. The GIS Specialist must have the ability to understand user requests, interpret these requests and formulate responses that meet the user's needs. This position requires the ability to use GIS to perform complex analysis and data editing tasks and proven problem-solving skills.

The ideal candidate will possess a minimum of a bachelor's degree in geography (GIS concentration), plus one year of professional GIS experience. Potential advancement possibilities may be associated with this position in the future.
